UPGRADE

Includes STANDARD features but with:

- * Chrome Beavertail Lugs
- * **OR** Black or Brass (not Beavertail) Hardware
- * **OR** Wrapped Finish

ACADEMY

The Academy Series features the same rigorous quality as STANDARD TreeHouse Drums except with only 8-ply shells, Direct Brackets, my choice of chrome hardware and fewer color & finish options for a fantastic value at a lower price—and you don't have to be a school to order them!

DELUXE

Includes STANDARD features but with:

- * Black or Brass Beavertails on Oil/Wax Finish
 - * **OR** Black or Brass Hardware (not Beavertails) on Wrapped Finish
 - * **OR** Chrome Tube Lugs or 6061 Lugs (and optionally, 6061 Bracket) on Oil/Wax Finish
- Add 10% over DELUXE for either black/brass Tube or Beavertail Lugs and Hardware on oil/wax finish or chrome Tube or Beavertail Lugs on Wrapped Finish
- Add 15% over DELUXE for both black/brass tube/beavertails and hardware and Wrapped Finish

Add \$100 for 6061 Legs/Brackets or 6061 Spurs/Brackets per drum; \$100 per hoop with HoopClaws

CANOPY PROJECTS

At the top of the tree, the Canopy range offers a host of designs and features to dial in the look and sound you're looking for. Do you want different bearing edges on each head of each drum or an extra mount to hang your snare from the hi hat stand? From internal mics to custom art, solid drum shells to LED lights, custom drumheads to rope tuning, let Derek help you explore the possibilities!

COCKTAIL KITS

A TreeHouse **Cocktail Kit** features an 8-ply 8" tom with sharp bearing edges and a 6-ply 10" tom with rounded bearing edges which make these toms sound WAY different from each other. A tall 15" bass with a snappy 13" snare floating over the top rounds out this unique kit. Included are a Gibraltar up-firing bass pedal, a cymbal arm, a hi-hat arm, arms/legs to hold up all the drums. Have fun figuring out how to play a standing drumset!

TUBE TOMS

TreeHouse **Tube Toms** are made with 8-ply maple shells and are available with hardware and finishes (oil/wax, excluding wraps) left natural or externally dyed to match your TreeHouse drumset! The option to internal dye match is available too. One double tom stand is included with each pair of TreeHouse **Tube Toms**.

ACADEMY SERIES CONCERT TOMS

TreeHouse **Academy Concert Toms** realize an opportunity for you to have quality, real maple drums for your pit, orchestra, or small ensemble situations without breaking the bank. TreeHouse **Academy Concert Toms** come in one of three colors: Natural Maple, Light Brown, or Earth Brown with an Oil & Wax finish with Evans Strata, G1 or G2 heads or Aquarian White Dot Tom Heads including our choice of chrome hardware. One double tom stand is included with each pair of TreeHouse **Academy Concert Toms**. Folks have been adding these affordable drums to their drumsets lately, so be sure to tell us if you'll be mounting them from or right-to-left (concert) or left-to-right (drumset) so the mounting brackets will be easy to reach. Also, when an **Academy Concert Tom** set includes the new 18" diameter option, since it needs a beefier bracket, all of the drums in the package would come with heavier-duty mounting brackets.

Concert Toms/Timbales and single-headed Bass Drums are also available in the **Standard/Upgrade/Deluxe** series at 70% of the two-headed prices

ACADEMY SERIES CONCERT BASS TOMS

Designed perfectly to compliment TreeHouse Concert Toms, TreeHouse **Concert Bass Toms** provide you with compact, great-sounding low end for your ensembles. Add your own tom arms or stands to mount these drums which each have two 10.5mm brackets. TreeHouse **Concert Bass Toms** come in one of three colors: Natural Maple, Light Brown, or Earth Brown with an Oil & Wax finish.

COMPACT NESTING KITS

Designed in conjunction with drummers in NYC, TreeHouse offers a GREAT sounding drumset that stacks into itself. Imagine all of your hardware and sticks in a backpack, cymbal bag in one hand and drum case in the other—either carried or wheeled along. It's here: the TreeHouse **Compact Nesting Kit**. The most popular product line in TreeHouse's history, a **Compact Nesting Kit** gets you out of the car (or off of the subway), in the door, on the stage and ready to sound great in one trip!

TUPANS

TreeHouse **Tupans** are rope-tuned East European-Style bass drums made of plied maple, cold rolled steel rings, and low-stretch kernmantle rope. A rounded bearing edge with Remo Powerstroke Fiberskyn on bass side and a sharp bearing edge with Remo Renaissance on treble side are standard. Other nice options are Evans '56 Calftones—standard weight on treble and the Calftone EQ4 for bass. Featuring a hand-rubbed Oil & Wax finish over dyed wood, TreeHouse **Tupans** are lightweight, easy to play, full-sounding, and unique! Each TreeHouse **Tupan** comes with a mallet & switch striker set.

6061

New in 2021, these exciting new hardware options are available on any TreeHouse drum, from just lighter Legs or interesting Lugs to complete Made in USA specs where everything on the drum is 100% All-American. For 100% Made in USA specs, select Deluxe Column and all bold Add-ons.

HAMMERED BRASS and BRONZE SNARES

TreeHouse offers **Hammered Brass and Hammered Bronze Snare Drums** featuring heavily-hammered shells for added warmth and stunning looks. The Brass Shell is finished with a black dimpled vibe as well a traditional center bead. The Bronze Shell is heavier with wider hammering and no bead. Available in 5"x14" and 6½"x14", these drums are great for all styles of music!

SOLID DRUMSETS, CUSTOM ART, INTERNAL MICS & LIGHTS, ETC

TreeHouse offers many ways to customize your drums your way. Contact Derek to explore the options for your project!
